

How does Habitat for Humanity work?

Habitat builds quality low cost houses by using the labor and management skills of volunteers. Donated materials and services are used wherever possible.

Habitat for Humanity of Sawyer County is a local branch of Christian-based Habitat for Humanity International. HFHSC works in partnership with future homeowners, local businesses, civic groups, churches, foundations and other caring people from all religions and walks of life.

Habitat builds or renovates basic practical homes and sells them to qualified families with a no-interest loan. Mortgage payments are spread over 15-30 years depending on the ability to pay. The monthly mortgage payments, which include taxes and insurance, are often less than the rent families are currently paying. Habitat selects families with incomes at or below 50% of the Median Gross Income for Sawyer County. Mortgage payments go into a fund to build more houses.
